Summary

Results-driven and passionate web development intern with a strong foundation in both front-end and back-end technologies. Eager to apply skills in HTML, CSS, JavaScript, and modern frameworks to build efficient and user-friendly web applications. Actively seeking opportunities to contribute to innovative projects and expand my technical expertise.

Skills

Web Development: HTML, CSS, JavaScript, Node.js, Express.js **Databases:** MongoDB **Programming Languages:** C++, Python, Java, C **Tools & Concepts:** Git, GitHub, VS Code, Responsive Design, Data Structures & Algorithms (DSA)

Projects

AgriConnect Platform

- Developed a full-stack web platform aimed at connecting farmers and agricultural experts, utilizing Node.js, Express.js, and MongoDB.
- Designed a user-friendly interface and implemented core features that showcase practical application of MERN stack principles.

MNIST from Scratch (Numpy)

- Built a machine learning model for handwritten digit recognition from the ground up using Python and the NumPy library.
- Demonstrated a strong understanding of core algorithms and data manipulation by creating a functional classification system without external libraries.

CredTech Hackathon

- Collaborated in a team to design and develop an innovative financial technology solution under a tight deadline.
 - Contributed to a project that required rapid prototyping and problem-solving, highlighting adaptability and teamwork.
-

Experience

CodSoft | Virtual Web Development Intern [September 2025] - [October 2025]

- Developing multiple projects using HTML, CSS, and JavaScript as part of the internship program.
 - Building a professional portfolio to showcase proficiency in web development concepts and practical application.
-

Education

Abdul Kalam Technical University Uttar Pradesh Bachelor of Technology in Computer Science and Engineering, 2028

B.K.D. Aldrich Public School Intermediate (12th Grade) | 86% | 2024

B.K.D. Aldrich Public School High School (10th Grade) | 91.6% | 2022
